Core material: Spruce / Spruce. This product is made of natural wood. Each tree has a unique grain and individual colour combination. We will therefore never be able to give you a complete picture of the finished floor. Please also note that the colour may change when exposed to light. As a guideline, darker wood species will get a more golden tone, whereas lighter species will become slightly darker. Cracked knots are filled with putty, so small gaps between the planks and wood may appear.
